

Greetings.

Finally I been able to give the money for the parents who were affected with by the fire. We did receive the donation from ERFA through Sammy Muga. Other donation we received from friends of Mary Rice in Melbourne and Tasmania which initially helped the parents to settle the parents to get accommodation.

This particular donation was used to stabilized their small business on vegetable and food to casual labour on construction sites. Each has received Ksh 15000/- for business and Ksh 3000/- for pay rent for one month at least.

The idea of the small business which was on operational before the fire is make them self reliant.

Thank for the support on behalf of the parents.

Blessings
